## Introduction

Grid-Connection is a work with an energy Grid net, which we as a Healing-Grid (in German if we say **healing grid**) call.

This energy grid probably already exists forever, however, it was forgotten either or it was never discovered. It is an energetic one Light grid, to us on our spiritual trip can support. The experiences up to now point, that People, either an alignment or one Connection with this grid have received, many Changes to the positive might experience. They learnt, to themselves to observe even, around negative emotions and To recognise thought to transform and then to let go.

What during the Grid Connection session really passed, we can hardly describe. But what it can cause **if we admit it really**, becomes here enumerated:

### **It straightens our own light grid**

So, how the earth with an energetic grid net is wrapped up, we probably also have people an own Grid. *Daniela in addition:* „Inzwischen I know, that it different energy grids gives, because I different ones might see and also experience.“

To us it is not mostly aware, that we one own light grid have. This grid is often by our blockades, whether emotionally or mentally, disturbed. This affects in different areas of our life. However, with the help of the Healing-Grids the own is able to Light grids again straightened and „repariert“ become and thereby we are able to do ourselves if we admit it really, spiritually faster develop. The true internal one Readiness in addition is absolutely necessary!

**It works at emotional and mental level**

By the alignment and Connection we discover  
bit by bit, that we our world by ours  
Thoughts and by the dependence on ours  
Emotions themselves create and also change therefore  
be able to.

**As well as it looks in our inside, so shines  
it to itself in the outside world against.**

**It brings us in the Synchronization consciousness**

It makes us Synchronization deliberate that is called, we  
become attentive on certain events , to us  
meet and fit them, and for us as  
Tips can count and help.

**It connects us with the river of the life**

To be in the river of the life, signifies the experience,  
be connected to – the play of the life with all its ones  
To find out experience joys.

**It makes the law of the attraction more deliberate to us**

It draws the things , for us at this moment  
are important. This can be a seminar, something  
contain what just occupies us or it is able to do that  
correct method of treatment for ours Loslassungs-  
Be a process . Or we meet person, we as  
Mirrors of our inside world recognise . Thereby we are able to  
our masks discover , they let go, around closer and closer(nearer and nearer)  
to reach to our true BEING.

**It works at all of the BEING**

That is at the cell level and it goes out to them  
causes to visible and invisible levels of ours  
Of BEING – from the microcosm to the macrocosm.

**It fetches back all aspects of our being**

We are not often entire. Many aspects of ours  
Of BEING are lost by different reasons  
gone, are floating around, so to speak, in other worlds,  
hang on the past lives or recollections or  
are suppressed by us. Thereby we feel  
tired, not intent, in a mess etc.

**It brings us back to our being essence –  
to our true BEING**

If we admit it and are really ready, learn  
we bit by bit our masks, which we of incarnation  
to incarnation with us carry to recognise and  
to let go. If we have done this, we are able to do ours  
Divinity recognise and understand, that we immortally  
are.

**It brings(gathers) together us as ONE**

It lets us not realise, that we separate ones  
Beings are energetic, but everything with each other  
are connected. A nice and easy example this  
We find attachment between mother and child.  
Each of us has his personality, however, in  
true core we are identical everything, we are a TRUE BEING-  
we are everything of ourselves - and therefore everything ONE.  
By this knowledge and by putting away  
of our masks we cause not only changes in

ourselves, but also round us with ours  
People – it is a cascade effect.

*We believe more people with Healing-, the  
Grid will work, the deeper the healing becomes for  
the light grids everybody single from us is and therefore  
also for us everything as ONE.*

*The Grid-Connection is not only  
something what one does , and it was this  
then. With the Grid-Connection one becomes  
deep, persistent process of development  
sedate in way .*

## **The session with the true BEING**

### **Daniela:**

For me this is  
True BEING ours  
Divine core. It is  
Pure energy, the pure  
Consciousness. This  
Core is surrounded from  
to our fears,  
Aggressions,  
Dependence,  
Blockades etc.,  
by ours  
Experiences in him

to many incarnations  
have originated. All this  
A subconsciousness stored, and thus are our masks  
originated.  
Experiences are in ours  
When I worked with Regine, we turned one  
certain technics in, around fast in this state  
To come BEING . Then we have discovered the following :

*In the being state nothing is more important. There is none  
Worries, no illness, no grief , no pain , because this  
BEING this does not know.*

*In this state we are up only observer and  
a level of the perception. We become the observers  
from the play of the life.*

*From here we are able to neutrally to our worries  
meet and see, that we in the middle of a play ours  
Roll play. How well we make this, this depends on us.*

Regine and I sent us even more often mutually in  
this state , however, we both felt it after one  
While quite boringly. Can you introduce yourselves this? There  
if there were no worries, **however, also no joy**. It was  
nicely, but after a while boringly. Thus we recognised ,  
that BE THERE ours here on earth in this body one  
important meaning has, namely so many masks like  
possibly, which we of incarnation to incarnation with us  
drag , finally, to get rid.

*The state of the BEING helps us in it, to ourselves  
to observe, to observe our thoughts , ours  
Subconsciousness and consciousness in harmony to  
bring, so that we create a life, to us  
Joy makes )!*

By the work with the Healing-Grid become to us  
now our masks consciously and we have the possibility,  
to transform this and to let go therefore. This is able to  
from only happen, or we meet person, one  
Mirrors for us are and from which we can learn.  
Or the correct seminars are offered and in such a way  
Further . The subject Synchronität becomes clearer and clearer!

## **About us and our experiences Daniela – Regine – Manuela**

### **Daniela:**

„After four years of „pregnancy“ also to the clear grates, this project was finally able by from Manuela and Regine – „that Midwives“ – nee.

We make the triangle of collaboration, that Regine and Manuela in visions appeared. In fact we together fasten this energy on earth, what to welfare for to every lone persons of us will be.

**It is a work for everything which are ready,  
to wake!**

### **Key experience**

Many people about us know, that the earth from to an energetic grid is surrounded. Many also talk from the Christ's grid. I myself was able to a few years ago still probably begin nothing with these concepts , because it simply my experiences were not.

*My first contact with energy grids brought me very much in the amazement. I saw them so clearly before my eyes, how I had never seen clearly something different thus. When this it happened, I fell unintentional in to me at that time unknown, almost frightening state of consciousness, while I of a strong, almost intolerable energy it was flowed through.*

I saw later still many different grids, and everything was so absolutely perfect they , and everything radiated them light and energy from.

I understood different ones, that these grids Information has, and I wanted to know more. Means Search lasted four years. I received from different ones People some different answers to mine

[www.thehealinggrid.com](http://www.thehealinggrid.com)

However, I felt the question what these grids could signify inside of my being that there still something else was.

In summer, 2007 I made together with mine Friend Regine and my man Michael with the help of one certain technics a trip to the grids. That, what we might experience and get to know, I would want to nobody kept.

Well, honestly said, I did not want with thus absolutely to the general publicity go, but my friend drew the attention of me to the fact, that this my task would be and that now the time is correct . “

**A few words of Daniela to Regine:**

Without Regine Träger it would have quite certainly still for a while lasted, this system to publish. By her help it was to me possibly, mine for four years of accumulated ones To deepen experiences with the light grids and to sort. I owe Regine of whole one Hug.

**Regines report of experience:**

*“Als I the first time the experience with Healing-Grid might make , I came in connection with mine Being essence what I already looked as long as for. It was one Strange feeling and, therefore, disconcerting and, nevertheless wonderfully. The disconcerting the first time for me if was the sudden freedom . I felt lost a little. It was a feeling regardless of time and space , freely from Emotions, freely from the forever rattling head.*

*At the second session with the Healing-Grid was it then quite quite differently and I is able to do it only in such a way describe: It was an ego freeing, while everything Aspects of my BEING integrates at the same time completely became. It is a very careful one, how cancelled and infinitely affectionately embraced feeling . I was able to do pattern in to infinite colours and forms see. In the whole body if it prickled well and I felt completely protected.*

*And exactly afterwards I had looked so long and am now by Daniela and the Healing-Grid come. It if the best possibility is for me ONE BEING with all to feel. In the everyday life it is for me the quickest form , me to fetch back if the ego tries , in the form of trouble to catch again Outside from me.*

*My Healing Grid alignment , - Connection and Initiation was compared with many energetic ones Inauguration experiences as a pupil and teacher mine the most intensive experience, absolutely freely from space , time, fear or to other emotions. I felt an all-embracing healing and a contact with myself, to all what I am, freely from any evaluation.*

***From my view as an observer during one Inauguration***

*I was present , as Daniela with the Healing-Grid worked. I observed every time the same , first with to her husband , then with her son. This observation if I try to describe, so well it is generally possible:*

*As the first I took an infinite great space  
full love true. I saw white-gold-silver light, to myself  
how by a cup in the vertex chakra poured out. The further  
this light by the body canal flowed, was able to the more  
I see the grid. It begins in the krone chakra and  
wraps up the body to under it to the feet and then goes  
again in by the body canal upwards and closes  
itself. Then originated round the body red ones  
Light spirals. For me it looked in such a way, as if it to itself around one  
Way of the ground and healing at all levels acts. One  
Way of the anchorage here on the earth. Then entered  
Feeling(Emotion) of infinite peace one and this not only for  
the person who received the work(job), but for this  
whole BEING – an indescribably wonderful feeling .*

*Sometimes I saw, before the grid originated, three  
Light balls – the earth star, centre mind (I call it thus –  
it lies by the height of the Tantra) and the soul star. From  
Soul star and earth star approached light ropes  
different to many little light balls, to itself around  
around the centre mind turned, sometimes very worriedly and  
fast. Then everything calmed down slowly and swung  
steadily.*

*Now and again I also saw a kind of mini-universe  
within the centre. However, this not always was, so is able to  
I still do not say what signifies this.*

### ***A remedial experience***

*At my work as a physiotherapist I was allowed  
in the meantime, very often the spontaneous quick remedial effect with  
Assistance of the Healing-Grids find out . I experienced an example with  
of a patient who sits by a genetic defect in the wheel chair.  
During one of my house visit days she had, one in this  
Day resulted, very painful phlebitis. I  
if no physiotherapy with her was able to during this day  
carry out, but she permitted quite positive ones to me, because they  
Experiences with energy healing had, with the Healing-Grid  
to work on her. After the treatment theirs were  
Pains away. Nevertheless, I requested them , most urgently  
to visit her doctor. A few days later she called me  
Patient in and told to me, that they , indeed, with the doctor*

[www.thehealinggrid.com](http://www.thehealinggrid.com)

*had, around himself a new order exhibit to leave, but all symptoms of the illness were that very same day of the treatment as blown off. I could persuade me in the next house visit itself.*

### ***My own remedial experiences***

*Since my Healing-Grid Connection and initiation has itself a lot changes in my life. As soon as I by unexpected circumstances from my emotional balance gets, if I combine with the Healing-Grid and my true being and come back presently in the river of the life without sticking in „negativ “ to feelings . At the same time I can observe like mine Sphere itself changed, all gravity drops and leave it are found of lighter and lighter(simpler and simpler) solutions, all the same whom or what it*

*concerns. At the same time becomes to me the universal law of her More deliberately i.e., on the one hand, I form attraction my life actively positively and on the other hand I find more and more Signpost for my healing. These are books or it goes to me suddenly a light on for certain subjects, me in to my life block.*

*The use of the Healing-Grids appears to me in any case, endlessly. One of the nicest moments was one Healing with the Healing-Grid for my emotional being. Just because I mean my rage and as an Aries's child Fury knows and knows what they could arrange . I am It is Daniela INFINITELY THANKFULLY, because they , me as my Reiki teacher has initiated and me since then affectionately and, nevertheless, hard enough connection, around further to scale the healing path.*

### ***The dream:***

*In a dream I saw three wives in the Canadian Rockies with the backs each other leant, something in him Ground anchor. These women were I myself, Daniela and a woman whom I did not know yet. Now this becomes Dream clearly and me knows that we were it, Daniela, Manuela and I, Regine. ”*

Feedbacks and is a co-founder and

**A few words of Daniela to Manuela:**

Then Manuela has everything properly to the role brought. Her experiences with Energy- Grid-Activation (a system with which it is very successful in Germany) as well as her strong interest in everything, what with grid nets has to act, a great support was and is in this Process .

**Manuela writes in addition:**

*“Change’ which brought the Grid-Connection me, had itself with me already at least 2 weeks before mine the first alignment announced by many signs , which I often in connection with grid net energy has got to know: I particularly saw many master figures round myself – Especially in cars and on watches: the whole spectrum from 11, 333, 44, 55, 777 up to 9999 and more. In addition if my eyes reacted, as usual, to strong , inauguration energy ’, while the pupil to itself in mine right eye increased – for days even - sometimes more and sometimes less. However, I had here no notion, in WHAT I it was initiated.*

*There(Besides) there got many intensive dreams. These were under it some dreams visionary for my relations very much in Connection on the weather and **a dream, in which I one common (Earth) healing session with two women held** . This healing session apparently found in Canada instead of - and a woman who took part in the session I knew up to now not yet. Later turned out, that Daniela and Regine had thought about me and considered, to ask me for cooperation in the Grid-Connection. Regine if I did not know up to the time yet. Now dawned to me who these women were in my dream: Daniela and Regine!*

*During the alignment , Connection and guardians  
I made inauguration even more interesting experiences  
and received explanations :*

***The alignment :***

*First I saw how was worked on me - as if had  
I me from ' beside I standing ' on the massage table  
observes. There came over and over again waves of energy. Only  
if it started softly and I thought, it passed nothing, but after  
of a while there came a wave of strong energy, one  
Pressure on my body (head arms) exercised , sometimes less,  
sometimes more, later also at other places. Here and there came  
also throats in the stomach, prickle in legs and  
To meridians - but always relatively briefly.  
Then a kind of golden or luminous bell / dome is around  
me around been based - from the Krone -Chakra  
coming.*

*I believed myself, like in a gigantic space -  
turned out for me more and more than one kind of OP from  
To extraterrestrial ones. They prompted to me, in any case, it would be  
"Healing space". When I asked who "they" are then, came  
over and over again the answer „Arkturianes “ in my own  
Thoughts . It was in such a way as if I already had this energy  
once got to know after my Kundalini Reiki  
Inauguration (2-nd degree ) in 2005:  
At that time I had during 1-2 weeks the wildest dreams and in such a way  
some like fever, but only at night – I was in the time like  
in the delirium, almost ,krank '. At times I thought even , that I  
now loses my mind . It was quite new  
The state of consciousness in which I was at that time.*

*The Arkturianes explained to me by this session , that it in such a way  
would be similar like at that time, when they to me at night a way  
'Screening' in the head had taken away, with thus I  
better could travel in the Astral world.*

*At that time they brought me in a dream  
The training space in which I saw direct and felt, **how to myself  
Thoughts IMMEDIATELY manifested.***

*One was better about to recognise how I my Thoughts  
aims:*

***Good Thoughts** rather with direction on me to  
think („Jonas loves me “)*

***Bad Thoughts** rather from me away direct  
(„ knife is thrown in the door frame “) ... in such a way  
the fact that they do not meet me, but something different ,  
what lies outside from me and no damage  
takes.*

*So rather do not think: „Hilfe! A knife! This is able to  
me injure ! “, because the energy of the Thoughts this  
Knife then exactly on me lets to come , and it  
me then can injure itself –, in any case, when  
Thoughts **IMMEDIATELY** would manifest ...*

***Thoughts** always have a **DIRECTION**. They are always  
in movement: On me to - or from me away - or  
which direction also always I give them.*

*Then I was with ‚Ausrichtung ‘ in one  
Connecting tunnel or a connecting hall, in one  
Grid net hall and me knew, that I from here everywhere  
there could get if I wanted - but it reached ) to me  
actually, already the knowledge that I would be able to, if I  
wanted ... the knowledge was relaxing anyhow and  
'releasing '.*

*Then some hiring subjects Things sank in me  
... as I would be a great magnet, which everything (how one  
Sponge) can soak up - without one day to saturated to  
be. **EVERYTHING had place in me**. Good things , bad - it  
made no difference - I could take up everything without opposition.  
Movement direction of the energy was: Inside going-  
on coming up and in me. Everything freed itself in  
to me on like in a pool of energy. I felt, how everything  
Besides, by virtue of came also more and more to me....*

***On the other hand, I also noticed that I just have everything already in myself - and everything could also get out of me and distribute in the world...***

*...other people had place - but as well IN ME  
if they "could be 'a long way off" - nevertheless, they were a part of me,  
about my heart with me linked if I wanted.*

*All that released more and more rest in me, because I  
knew that I am always that which 'admits' things or  
also on distance holds in my life. **I determine that  
Distance between me and that what I want or,  
what I also do not want. Everything hangs from mine  
' internal setting ) ' to these bargaining subjects or  
also people from** (who are at the same time all part of me,  
because they everything always when I want also IN ME place have ...)  
It felt neither negatively nor especially positively,  
Things farther or closer in me in it or in me in it to  
feel. Everything was in such a way as it was exactly right for me.*

*I have the feeling , I am able to do now also something  
more deliberately steer because I 'understand' like this functions ,  
because I have simply seen the dynamism and have felt.*

### ***The Connection :***

*I saw at the beginning of grid nets which developed, what  
I had not seen before so radiant and clearly. It  
if were bright white-golden grids, either around mine  
Bodies around or round the earth were tight ... (probably rather  
both)... Then became to me the a little bit brightly appearing ,  
triangular in my 3-rd eye sedate. It became to me from one  
Beings with a similar radiation like Christ  
given. Then a peace pigeon still came to mine  
Point of view, or a thought of the ' holy mind ' .*

### ***The guard's inauguration:***

*The inauguration had two preparatory sessions : I  
had to do me once approx. 3 hours before for 30 minutes  
put down and was worked on and then once again approx. 1  
hour(Lesson) before beginning of the guardianr .  
Besides, was worked a lot on my 3-rd eye. It  
if a lot of energy flowed to and fro in my energy system*

*and then became to me an indication to 21. Chakra  
(5-dimensional 3-rd eye) given. I saw one  
The solar disc which rose, besides. It were natural also in  
to the preparatory sessions the 'extraterrestrial' again in  
to me in work. I was in a bluish-white light cover  
on a stretcher or an OP table and became  
„bestrahlt “ ... and anyhow works on...*

*Then by the guard's inauguration it happened only even  
not so much, to me went Thoughts of water,  
Floods became by the head ... and all at once  
I appealed(spoken):*

*„Do has a question? Here you find the answer. Here  
if answer and question one. “ are maybe said the voice  
also: " Here the place, where question and answer is at the same time  
are / exist ". **I was it ,Wissen ’, which  
telepathic received.***

*I put questions and to me was explained , **that this  
Water an important interest in it has, this  
To be able to anchor grid net energy on the earth.  
The water brings our earth - with the energy  
linkedly – properly in 'oscillation' - how one  
Resonance body. To me was explained , that I me  
should remind, that also I to approx. 90% of water  
exist and so this oscillation hold or  
can anchor by my body. I still became  
reminds once of a dream of the last days, in to me  
it was explained , as well as the melting ice in him  
Polgebieten in molten form better in 'resonance'  
can come - it would be a very happy event ,  
especially a lot of love brings - I should be not afraid.  
It would be good, **if the ' icebound emotions '**  
**melt.** We would be all water beings ... and then came  
Dolphins in the picture.***

*Later I became with a kind of shuttle carriage in one  
Cave driven. These were the switch headquarters for this  
Grid net in the centre of the earth - where also the guardians  
Her command centre on the earth have, thinks  
then I ... briefly prickled it in my Root-Chakra them  
Legs down for few seconds.*

*A friend saw me one day later and said,  
the fact that I have another face - what I then  
would have made ? Then I have to her from the Grid-Connection  
tells ... the energy clearly appear my radiation  
to have changed! ”*

## The steps of the Grid-Connection

### The alignment

On this occasion, your own light grid becomes again straightened. This alignment is able to also as one Healing session are called, because where this own light grids works not properly or even is damaged, healing work takes place.

By the first alignment are three sessions all together inevitably. However, later single ones are able to also sessions are carried out.

Before you decide on an alignment, tests to yourselves, to what extent you are ready for it. This is one important point, because if to her now thinks: „Yes, I am ready.“, then, however, it could be, that you Subconsciousness says: „No, I am not ready.“ This can have different causes, as for example fear before change, or missing faith.

Here a suggestion, as you can test yourselves:

- introduces to you a scale of 1-100% or paints one on.
- Putting to your subconsciousness or your higher Even, the highest authority of yours Of subconsciousness is, the question:
  - „how much percent I am ready, this To accept alignment?“
- then • Were it 100%, is good it in such a way.
- If there are, e.g., only 70%, then this has to go on 100% are raised.
- Asking to you then: „Why I would want this Alignment?“ Then answers this question. E.g. „I would want this alignment, around my spiritual one To accelerate growth.“
- Then tests again whether the percent number increases has.

- If not, finds other motivations, until to her 100% have reached or wait, until to her really in such a way are wide.

Also the guardians will test for you and support.

After the alignment you are registered, so that you if there is new information moreover can be informed.

Next to the expiry of the alignment you receive, if you decide on it.

### **The connection**

Before you the Connection with the Healing-Grid can receive, is necessary the alignment s, three sessions needed.

In addition , it is important again, the internal readiness to examine. You yourselves can do this, on the one hand, in such a way, as with of the alignment , on the other hand become the guardians to you on this occasion, support.

At this work a straight Connection , one finds if interlinking could also say, to the Healing-Grid instead of. This Connection occurs about own light grid, itself by this work with the Healing-Grid links up .

One more report of experience of Michael, once more clearly on the experiences after the Healing-Grid Connection comes.

***From Michael Hills, writer of the book "Creator".

*I would want "Als the first on the Connection with him Healing-Grid come. When I came to the room, where I them Grid-Connection should receive, I stopped in that The door threshold because me something hid. Carefully I held my hands in the space . There I felt an energy, was in the space as I had never felt it before. This Room was charged, so to speak, "dick " with energy. Means Hands intensely tingled.*

*It came out, that Daniela her friend Regine had connected just with the Grid, and here one was able to still feel the energy.*

*I myself felt the energy during the Connection Especially round me.*

*However, more importantly for me it is what happened afterwards: It opens and straightens the senses for Synchronization, and oh Man(Husband), this is exactly that what just happens to me, since I am connected.*

*I suddenly notice a Synchronitat after the others.  
I feel how I am with the universe in harmony,  
and the universe shows me constantly helpful events .  
Especially in my nevertheless otherwise very depressive job  
as a cameraman for the messages , what one to itself probably  
can introduce .*

*A good example: I had an unusual one  
Experience where I a lot „felicity “ with film especial  
History never had, what ordinarily in this form  
has happened. It seemed in such a way, as if I always at the right time  
at the right place was to film the history , even*

*before the police came. Actually, I have them  
Police officers any time called and them followed me!*

*It appears to me, since I have the Grid-Connection, that  
I am over and over again a step ahead, and  
Synchronization happen at all levels . Maybe were  
these Synchronization already before there, however, I do not have them  
seen? Anyway, it shows me the advantageous, funny ones  
Side of my otherwise so depressive job.*

*Now I also am aware even more, that I to her  
Creator of my reality am, and I understand more, what  
Daniela tried to explain( to me for many years be how one  
Lives, for example, by „ecology of the Thoughts “ (more  
in addition under [www.lightpost.de](http://www.lightpost.de) or [www.gatelight.com](http://www.gatelight.com))  
can change. ”*
